SOURCE EVALUATIONS ARE DEFINITIVE APPRAISAL OF CONTENT IS TENTATIVE

1. The Tecuci military airfield is about one kilometer northwest of the city. It is bounded on the north by the Tecuci-Marasesti electric railroad; on the east by the city of Tecuci; and, on the west by the Tecuci-Marasesti highway. The total area of the airfield is five square kilometers. It belongs to an Air Force regiment

2. At the time of observation, there were six hangars set on concrete foundations, with wooden roofs, covered with white zinc sheet. Two of the hangars were used for repairing and servicing aircraft and engines, and four hangars were used for aircraft of the unit, and equipment such as pneumatic pumps, gasoline tanks, etc.
3. About 50 meters behind the guardhouse, there is an underground gasoline storage tank covered by a layer of earth four meters thick. The tank is supplied directly by a pipeline leading from the Tecuci-Barlad electric railroad, about 800 meters from the tank.
4. Guard duty is performed by 50 soldiers from the 1,070th Regiment at four day and eight night posts. The arms include ZB rifles and Daimler-Puch pistols.
5. The following aircraft were observed at the Tecuci airfield: 30 IAR-80 planes; 2 Focke-Wolfe planes; 4 reconnaissance planes; 2 Fieseler observation planes; and 10 Soviet YAKs for training.
6. The runway, which lies directly in front of the hangars, is 400 meters long and 10 meters wide.
7. The following is a legend for the attached sketch:
  1. City of Tecuci
  2. Aviation Unit
